### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record discloses the claimed tight-buffered optical fiber comprising at least a first buffer layer of a polymer material enclosing said optical fiber; and a plurality of strength members embedded in said buffer layer, said strength members positioned longitudinally and in contact with said optical fiber and positioned to surround a circumference of said optical fiber. As acknowledged in applicant's remarks, the prior art of record lacks to specifically disclose that their strength members are being embedded in a buffer layer which surround the optical fiber and that the strength members are positioned longitudinally and in contact with the optical fiber. Rather, the prior art of record discloses that their strength members are either embedded in a coating layer or that the prior art of record lack to specifically disclose that their strength members are in contact with the optical fibers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
